

1

PULL

just pull down the SpeedClic-mandrel

2

CLIC

insert the Dremel SpeedClic cut-off wheel onto the SpeedClic

3

TWIST

until it fits and you are ready!!!

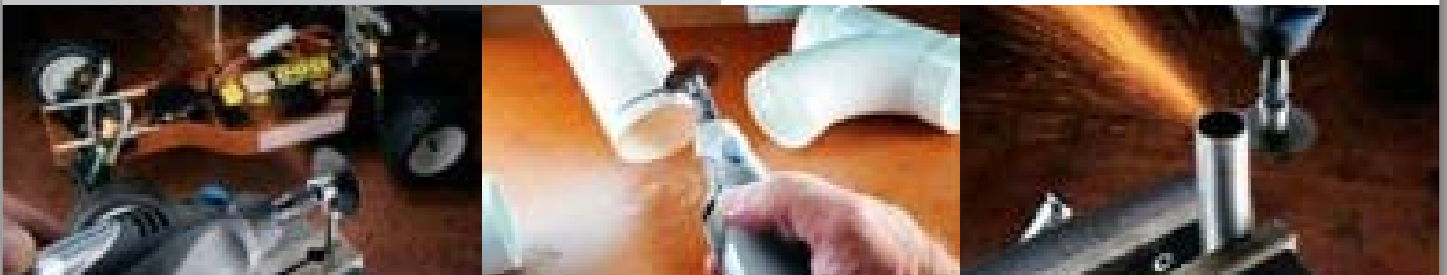

DREMEL[®]
SpeedClic[™]

Dremel, the inventor of the Multitool, now brings you SpeedClic - an innovation that makes changing cut-off wheels quick and easy. Through a patented mandrel and wheel design, Dremel has found a way that enables you to change your accessory in 3 simple steps – Pull, Click, Twist – without using tools!

For rotary tool users, SpeedClic provides greater ease and effectiveness when working on projects, and it saves you time! With SpeedClic you can change cut-off wheels within 10 seconds: Quick, Easy, Keyless!

And this is just the beginning Dremel will further develop more accessories to help you work on your project with more joy and satisfaction.
